

Request for Proposals: Ivan Allen College Internal Grants Programs

Frequently Asked Questions

Am I eligible for ...?

Eligibility varies for the various categories of awards. Please see the table below for details:

Award	Eligibility
SGR-A, SGR-B, SGR-C	Tenure-track or tenured faculty who did not receive a SGR-A, SGR-B or SGR-C award in either of the last two cycles. Faculty who received awards in the last two cycles cannot serve as PI but can serve as Co-PI on a collaborative proposal.
SODA-A External Funding Support	All full-time academic and research faculty with their primary appointments in IAC units. Past recipients of awards in this category are eligible, but preference is given to faculty with limited experience seeking external funding.
SODA-B Targeted Research Initiative SODA-C Curriculum Development	All full-time academic and research faculty with their primary appointments in IAC units. Priority is given to faculty who did not receive a professional development or scholarly activities award in the last cycle.
SODA-D Professional Development SODA-E Miscellaneous Research Expenses	All full-time academic and research faculty with their primary appointments in an IAC unit.

Please see <https://research.iac.gatech.edu/iac-gt-funding> if you need to verify if you received a SGR or SODA award in a recent award cycle

Can I apply for multiple grants?

- Eligible faculty are limited to one SGR application per cycle. Please choose the category that best aligns with your research support needs and priorities.
- Eligible faculty may apply for SODA awards in multiple categories but should be aware that it is highly unlikely they will receive more than one award in a given year.
